About ASRI

The **American Society for Reproductive Immunology (ASRI)** was founded in 1981 with the mission to foster the development of reproductive immunology research, increase intellectual exchange between clinical and basic branches of reproductive immunology and provide mentoring for scientists-in-training.

The ASRI is home to a diverse membership that includes clinical and basic scientists specializing in Obstetrics & Gynecology, Reproductive Biology, Microbiology, Mucosal Immunology, Genetics, Pediatrics, Infectious Diseases, Endocrinology, Pathology and Animal Sciences. Since its inception, the society has held an annual meeting to promote collaboration, cross-disciplinary research and mentorship within the field of Reproductive Immunology.

The American Journal of Reproductive Immunology (AJRI) is the official scientific journal of the ASRI and is ranked in the Top 10 in Reproductive Biology Journals, with a 5-year impact factor of 3.013. The AJRI publishes original research, reviews and opinion articles covering a range of topics within the field of Reproductive Immunology. The abstracts from the annual meeting are also published in AJRI.

Invitation to Attend

On behalf of the American Society for Reproductive Immunology, it is with great enthusiasm that we invite you to attend the 43rd Annual Meeting, to be held at the La Fonda on the Plaza Hotel, within walking distance to art galleries, shopping and the best downtown Nashville has to offer! Our meeting brings together basic scientists, clinician-scientists and healthcare providers who work together to translate scientific discoveries into improved patient care.

This is an excellent opportunity for exhibitors and sponsors to advertise and/or interact with our diverse membership made up of professionals working in academia, industry, and clinical settings. This year's meeting will be an especially fitting for introducing and/or promoting new products and technologies. Fitting to Nashville, America's Music City, the theme for ASRI 2022 is "Get In Tune with the Latest Hits in Reproductive Immunology". The Scientific Program committee has put together an exciting schedule of events, including plenary and break-out sessions led by leading national and international experts in the fields of Obstetrics & Gynecology, Immunology, Pediatrics, Infectious Diseases, Genetics, and Developmental Biology. We have multiple sponsorship opportunities for the annual meeting of ASRI 2023. Sponsors also receive complimentary registration, invitation to our Welcome Reception and Awards Banquet, and recognition on our website, in our program, and on our mobile app!

ASRI 2022 promises to provide multiple opportunities for learning, exchanging ideas and discovering up-and-coming technologies at a stunning venue. It is unique because it combines clinical medicine and reproductive immunology to create a synergistic scientific environment that brings together scientists, and clinicians worldwide. Our overall goal is to have scientists and physicians share their latest research and clinical findings. This meeting also looks to the future. Our Society is rich with the next generation of future scientists and clinicians (graduate students, postdoctoral fellows and residents) who will have a format to present their findings and to interact with leaders in the field of reproductive immunology.

We look forward to seeing you in Santa Fe!
